NEW PLANS asana

CHANGES

Asana announced and launched **new Plans in November 2023**.

Premium and **Business** plans are transformed into **Starter** and **Advanced** plans.

Prices remain the same.

The Enterprise plan is divided into two plans: **Enterprise** and **Enterprise +**.

The first plan, Enterprise, is now much more **affordable in terms of price**, while integrating major functionalities (SSO, SAML).

An option is available for local data hosting (in Europe, for example).

This change marks **Asana's intention to focus on Enterprise plans**, with a more affordable first level.

IMPACTS

Until 2025, you won't have to switch to new subscriptions if you already have an active subscription.

You will have **soft limits** on your current subscription (seats / portfolios / automation / reports) for a while, and later hard limits will be imposed (dates to be defined).

You can **choose to switch to the new plans now**, so you don't miss out on any of the new features.

From 2025 (definitive date to be defined), you will be automatically **transferred to the new subscription**:

- on your monthly renewal date
- if you change your seats or subscription
- if you exceed your limits (seats / portfolios / automation / reports)

If you are currently using the Business version:

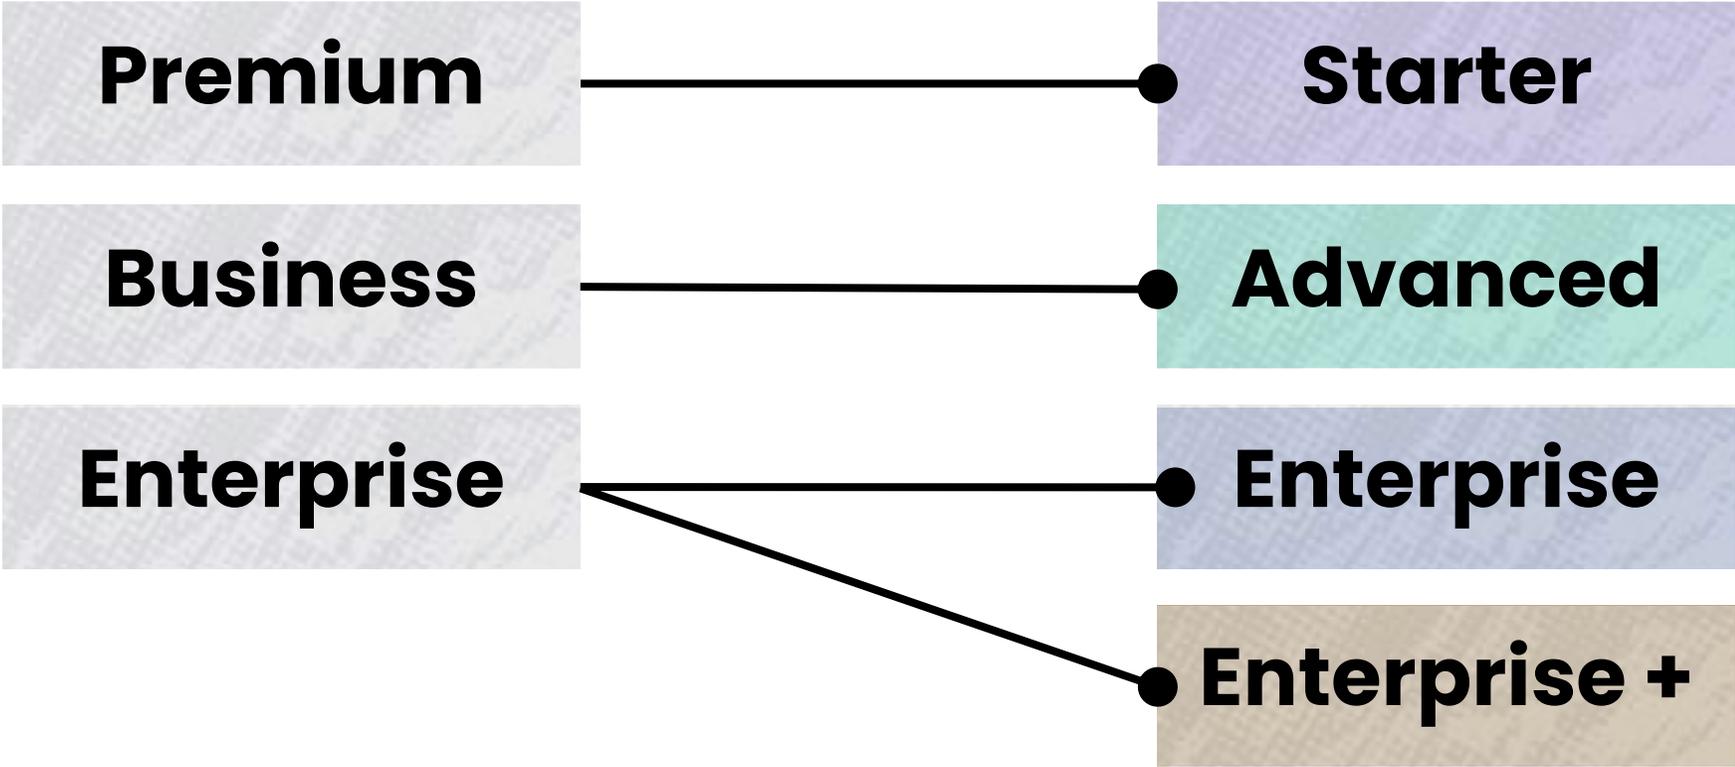

Switching to the new plans would give you access to new features like Asana's artificial intelligence (smart replies, smart statuses, summaries, etc.).

You could gain access to SSO and SAML with the new affordable Enterprise offering.

NEW PLANS asana

Former Plans
End of validity in 2025

New Plans
Launched in 2023

NEW PLANS asana

	Automations	Portfolios	Asana Intelligence	Users
